

UX / Front End Web Developer based in the West Midlands. I am Passionate about web standards whilst creating simple, usable and beautiful looking websites.

I specialise in front end web: **HTML5**, **CSS3**, and **Responsive Design**. I write clean, semantic, standards-based code that's optimised to give users the best possible journey and experience. Very experienced and successful - confident to deliver and achieve on any given web project.

Technical skills & Experiences

HTML, XHTML, CSS3, SASS, JQUERY, JAVASCRIPT, RWD, AWD, E-COMMERCE, W3C, PHP, BOOTSTRAP, FOUNDATION, FIREWORKS, PHOTOSHOP, LOTUS NOTES, GOOGLE SUITE, SHAREPOINT, UX, DEVICE TESTING, CROSS-BROWSER COMPATIBILITY, ACCESSIBILITY, KNOCKOUTJS, DURANDAL, GRUNT, GIT, CORDOVA, ANGULARJS, WORDPRESS, REACT & REDUX

Front End Web employment history:

Rivo Software - rivosoftware.com - *Front End UX/UI Developer [July 2016 - present]*

Responsible for mobile app development and project. Look after the companies front end estate and ensure the product is delivered to all clients regardless of personal configuration.

Npower RWE - npower.co.uk - *Front End Web Developer [Feb 2016 - June 2016]*

Day to day amends to the npower brand and online estates. Week to week sprint work in an agile environment with scrum. Wider project work and CMS implementation. Ensuring all accessibility and usability standards are adhered to.

Attraction World - AttractionWorld.com - *Front End Web Developer [May 2013 - Dec 2015]*

Responsible for the design, layout, coding of the company's websites. Leading on a number of projects initially around responsive website design, build and deployment. Attractiontix.co.uk, Floridatix.com, Attractionworld.com

Hazibo Web Designs - Hazibo.com - *Freelance [2010 - Current]*

I'm a freelance web designer who helps individuals and businesses with online solutions, and front end requirements. Hazibo Web Designs was thought of in 2010 as a concept but fully established itself in 2011.

Warwickshire County Council - Warwickshire.gov.uk - *Web developer [Aug 2008 - April 2013]*

I advised on and implemented new front end developments to ensure customers have a smooth experience when visiting the sites. I was responsible and lead for content, standards, guidelines, accessibility, usability, navigation and structure. Ensured any designs and developments complied with my in-house style and editorial policies.
