

Recruiters FAQ

Please refrain from leaving voicemail messages, if you really need to know something then please email.

Q. Why are you thinking of leaving your current employer?

A. I'm not, I'm very happy at the moment, but if the right opportunity presents itself then you never know. I think most people would agree!

Q. What type of position would you be interested in?

A. Permanent or contract. The contract would need to be in the West Midlands and ideally longer than 3 months.

Q. What salary are you on and would be looking for?

A. Email me!

Q. What is the farthest you would travel?

A. Depending on salary, but the West Midlands and surrounding counties.

Q. What's your perfect role?

A. I'm already in it... but somewhere I can concentrate on Front End developments, advice and implement on new technologies and explore better ways of doing things. I have experience working with C#, PHP etc... but this doesn't make me a "back end developer" so please don't pass me on those types of job descriptions. I am looking to learn new skills, having the opportunity to do this is important to me.

Q. What is your notice period?

A. 4 weeks

Q. Anything else?

A. Anything else you need to know should be on tomrudge.com, from my portfolio, skills and contact details. Everything but my shoe size, this is personal - but if you really want to know then email me! (do not leave a voicemail)
